Short text containing the type of work done, results obtained, lessons learned and other insightful remarks. Here too, ending a line with a backslash forces a line break. List items do a line break by definition. But regular consecutive paragraphs get concatenated into one unless backslash is used. Can also include lists and links:
- First item
 - Item with link. Links will work both in the html and pdf versions.

 - But you need to mind the indentation levels in the markdown source.
 - Second item.
